

Chairman of Scottish Power Generation Holdings Limited.

Executive Director, Industrial Engineer (UPV. Bilbao). Post-graduate studies in Business Administration (IESE.Madrid).

Married with three children.

RELEVANT EXPERIENCE:

Energy sector

His present position since 2016 is Managing Director of Liberalised Business at Iberdrola Group.

Since July 2006 was the Retail Director of Iberdrola Group, responsible for more than 20 million customer portfolio in Europe, developing also the retail activity and global coordination of the Iberdrola retail business worldwide.

Currently, he is the Chairman of the board of directors at Scottish Power Generation Holdings, Ltd, a company with a portfolio of 5.7 million customers in the United Kingdom, as well as Iberdrola México Generación, SA, board of directors Chairman.

He joined Iberdrola in 1994, after starting his career in the development of the engineering and consulting company IDOM.

During his first period in Iberdrola, he had worked in the Planning and Studies Division, and afterwards was the Head of Power & Emissions Trading.

His duties, as the Liberalised Business Managing Director of Iberdrola Group, include the whole power generation, the retail business as well as the Iberdrola operations in the energy wholesale worldwide.
