The Board of Directors of IBERDROLA, S.A. (the “**Company**”) has the power to design, assess and continuously revise the Governance and Sustainability System, and specifically to approve and update the corporate policies, which contain the guidelines governing the conduct of the Company and of the companies belonging to the group of which the Company is the controlling entity, within the meaning established by law (the “**Group**”).

In the exercise of these responsibilities, and within the framework of the law and the *By-Laws*, the guidelines for conduct that take shape in the *Purpose and Values of the Iberdrola group*, and its sustainable development strategy, the Board of Directors hereby approves this *General Corporate Governance Policy* (the “**Policy**”).

1. Purpose

The purpose of this *Policy* is to establish the general corporate governance strategy and commitments of both the Company and the Group, based on the application of the highest ethical standards and upon compliance with the good governance recommendations generally recognised in international markets, adjusted to the needs and the business reality of the Group.

All of the companies of the Group conceive of corporate governance as an element in service of the corporate interest, which the Company conceives as the common interest of all shareholders of an independent company focused on the creation of shared sustainable value by engaging in the activities included in its corporate object, taking into account other Stakeholders related to its business activity and its institutional reality, in accordance with the *Purpose and Values of the Iberdrola group* and the bylaw-mandated commitment to a social dividend, and particularly to the achievement of the Sustainable Development Goals (SDGs) approved by the United Nations.

The Company requires and hopes that its shareholders and other persons holding rights or interests in shares of the Company, and, to the extent applicable, intermediaries, managers and depositaries, respect and comply with the provisions of this *Policy* in their relations therewith.

2. Scope of Application

This *Policy* applies to all companies of the Group, as well as to all investees not belonging to the Group over which the Company has effective control, within the limits established by law.

Without prejudice to the provisions of the preceding paragraph, listed country subholding companies and their subsidiaries, based on their own special framework of strengthened autonomy, may establish an equivalent policy, which must be in accord with the principles set forth in this *Policy* and in the other environmental, social and corporate governance and regulatory compliance policies of the Governance and Sustainability System.

At those companies in which the Company has an interest and to which this *Policy* does not apply, the Company will promote, through its representatives on the boards of directors of such companies, the alignment of their own policies with those of the Company.

This *Policy* shall also apply, to the extent relevant, to the joint ventures, temporary joint ventures (*uniones temporales de empresas*) and other equivalent associations, if the Company assumes the management thereof.

3. General Principles of the Corporate Governance Strategy

In order to achieve the objectives relating to the corporate governance strategy, the Group accepts and promotes the following general principles of conduct in each of the areas indicated below:

- a. shareholders: the Company considers the effective and sustainable engagement of shareholders in its corporate life to be a primary objective, and proactively seeks two-way interaction with the Company’s shareholders in order to encourage their sense of belonging through ongoing and effective dialogue with them that helps align their interests and those of the Company, in accordance with the *Shareholder Engagement Policy*.

Within the framework of the corporate interest, the Company takes specific and measurable financial and non-financial objectives into account in its strategic planning that always seek to improve profitability and to create value sustainably for the shareholders.

The Governance and Sustainability System also contemplates the measures that are appropriate to safeguard the interests of the minority shareholders of the companies of the Group that are not wholly owned, to the extent that they may not be fully aligned with those of the Company.

- b. separation of duties and decentralised management within the organisation: the Group duly separates the duties of day-to-day and effective management from those of defining strategy, supervision and control, with a decentralised structure inspired by the principle of “subsidiarity” and respect for the corporate autonomy of the entities that comprise the Group.

The Company scrupulously respects the legal and functional separation of regulated companies and the autonomy that other companies of the Group should have, especially those that are listed, for this purpose providing specific mechanisms and procedures to prevent, identify and resolve conflicts of competition and interest, whether of an exceptional or a structural and permanent nature.

- c. regulatory and ethical compliance: the Group endeavours to ensure compliance with the law and with the ethical commitments made by virtue of the provisions of the *Code of Ethics* foster a preventive culture based on the principle of “zero tolerance” in respect of the commission of wrongful acts and on the application of principles of ethical and responsible behaviour by all professionals of the Group.

For this purpose it has a compliance system consisting of a structured set of rules, procedures and activities intended to ensure the development thereof in accordance with ethical principles and lawfulness, prevent and manage the risk of regulatory or ethical breaches or violations of the Governance and Sustainability System, as well as to contribute to the full realisation of the *Purpose and Values of the Iberdrola group* and the corporate interest (the “**Compliance System**”).

The Compliance Unit, a collective permanent and internal body linked to the Sustainable Development Committee of the Company's Board of Directors, is responsible for proactively endeavouring to ensure the effective operation of the Compliance System. It has the broadest powers, budgetary autonomy and independence of action to meet its goals.

The Compliance Unit and the compliance divisions of the other companies of the Group perform their duties in keeping with the principles of cooperation and coordination, and observing the corporate autonomy of all entities of the Group.

As regards data protection, the Company has a specific policy that endeavours to ensure compliance with applicable legal provisions in this area, particularly ensuring respect for the rights to reputation and to privacy in the processing of the various categories of personal data.

- d. taxation: the Company has a *Tax Policy* based on the concept that the taxes that the Group pays in the countries and territories in which it does business are its main contribution to the funding of public purpose needs and, accordingly, one of its main contributions to society.

The Company's tax strategy basically consists of ensuring compliance with applicable tax laws and regulations and seeking to establish an appropriate coordination of the tax practices followed by the companies of the Group, all within the framework of fulfilling the corporate interest and supporting a long-term business strategy that avoids tax risks and inefficiencies in the implementation of business decisions.

- e. promotion of diversity: the Company seeks an appropriate balance in the composition of the Board of Directors, as well as regular staggered renewal, and endeavours to ensure a diversity of skills, knowledge, experience, origins, nationalities, age and gender among its members as a reflection of the social and cultural reality of the Group.

In the area of remuneration, the Company articulates its *Director Remuneration Policy* and its *Senior Management Remuneration Policy* on principles that combine motivation, loyalty-building and the objective evaluation of management and performance with dedication and achievement of the goals and results of the Company and its Group, within the context of their international activities.

- f. transparency: the Governance and Sustainability System entrusts to the Board of Directors the highest-level supervision of the information provided to shareholders, institutional investors and the markets in general, safeguarding, protecting and facilitating the exercise of their rights and interests within the framework of the defence of the corporate interest, endeavouring to ensure truthfulness, promptness, clarity, symmetry and respect for the principle of equal treatment in the dissemination of information.

The Company ensures that its financial information, which it must regularly publish, reflects in all material respects a true and fair view of its equity, financial position and results as provided by law, and the *Iberdrola group Financial Information Preparation Policy* establishes a number of principles for the preparation of consolidated information that must be observed and followed by the companies of the Group.

Pursuant to the provisions of the *Iberdrola group Non-Financial Information Preparation Policy*, the Company also prepares and discloses relevant and reliable non-financial information regarding its performance and activities. In particular, the statement of non-financial information, which is formulated by the Board of Directors and, after independent verification, is approved by the shareholders at the General Shareholders' Meeting, seeks to reflect the Company's environmental, social and corporate governance performance, as well as the social dividend generated and shared with its Stakeholders.

The general communication strategy for financial, non-financial and corporate information through the information and communication channels provided for in the *Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors* contributes to maximising the dissemination and the quality of the information available to the market, to shareholders and the financial community, and to other Stakeholders.

- g. the IBERDROLA brand: a hallmark of the Group's identity and one of the Company's strategic assets in the economic, social, environmental and corporate governance dimensions, the Company works to ensure that it is protected and used as a lever contributing to the reputation and success of the Group's businesses.

The brand also contributes to the two-way interaction of the Company with its shareholders and fosters engagement in corporate life by the shareholders and other Stakeholders, the expectations of whom the Company includes in its strategy and are taken into account in the management of corporate reputation.

4. Commitments in Relations with the Company's Shareholders

The Board of Directors has recognised a strategic goal of paying continuous attention to the transparency of information and of relations with its shareholders and with institutional investors, which are governed by the provisions of law and the Governance and Sustainability System and, specifically, by the principles set out in the *General Sustainable Development Policy*, in the *Policy regarding Communication and Contacts with Shareholders, Institutional Investors and Proxy Advisors* and in the *Shareholder Engagement Policy*.

For their part, shareholders must exercise their rights vis-à-vis the Company and other shareholders, and must comply their duties, acting with loyalty, in good faith and transparently, within the framework of the corporate interest as the paramount interest

ahead of the private interest of each of them and in accordance with law and with the Governance and Sustainability System, to the extent applicable thereto.

The Company desires and aspires for shareholders to act with entire transparency vis-à-vis the Company and the other shareholders, reporting the terms and conditions associated with the acquisition and holding of financial, voting and related rights, without prejudice to their legal duty to disclose significant interests, the identity of the ultimate and actual owner of the Company shares, any other securities entitling the holders to acquire or subscribe for shares or other interests therein, as well as the voting rights that may be exercised by them. It is also expected that they disclose the status or capacity in which they hold such shares, securities, rights or interests.

Specifically, every shareholder and every holder of an interest in shares of the Company or of voting rights therein, even if not a shareholder, must be prepared, as an expression of the holder's commitment to transparency and the corporate interest, to disclose and provide to the Company specific, full and accurate information on the aspects described below:

- a. In the event of the acquisition of voting rights representing a percentage equal to or greater than one per cent of the share capital or total voting rights, whether the holder is also the full owner of the respective shares or has assumed the risk and peril thereof, as well as the type of instrument used for such acquisition.
- b. - c. In the event that the threshold of ten per cent and successive multiples of five per cent of the share capital or of voting rights is exceeded, whether the holder has a plan to acquire control of the Company or intends to continue to acquire shares, interests in shares or voting rights, and the periods during which the holder intends to do so. Finally, the holder must report any subsequent changes with respect to what was previously reported.
- d. In the event that the formal owner of the shares, of the interests in shares or of the voting rights holds such status in a fiduciary or any other similar capacity, to disclose to the Company the name of the ultimate and actual owners of the shares, interests in shares or voting rights.

5. Commitments regarding Separation of Duties and Checks-and-Balances

5.1. The Board of Directors

The Board of Directors, the body with the broadest powers to administer the Company, focuses its activity on approving the strategic goals of the Group, on defining its organisational model, and on supervising compliance therewith and further development thereof. In the performance of its duties, it pursues the corporate interest and acts with unity of purpose and independent judgement, affording equal treatment to all shareholders in the same situation.

It is composed of persons with recognised prestige and professional competence, who act with independent judgement in the performance of the duties inherent to their position. The composition thereof seeks a diversity of skill, knowledge, experience, origin, nationality, age and gender, such that decision-making is enriched and multiple viewpoints are contributed to the discussion of matters within its purview.

The stability of the Board of Directors is a primary objective. Therefore, the Company has adopted a number of measures so that each year the shareholders at the General Shareholders' Meeting decide on the appointment or re-election of approximately one-fourth of the directors.

The Company also has a succession plan for non-executive directors, which attempts to ensure that the renewal thereof occurs on a staggered and orderly basis, anticipating expected vacancies (due to reaching the indicative age of seventy years established for these directors as the age after which the Board of Directors will evaluate the continuation thereof or due to exceeding twelve years of continuous time in office, which means that they cannot be classified as independent).

In addition, the Board of Directors has approved a succession plan for the chairman of the Board of Directors & chief executive officer, which shall apply if he gives early notice of his desire to resign from his position, or in the event of non-occasional and unexpected non-availability.

The text of both plans, together with other rules of self-organisation of the Board of Directors, is set out in Annex I to this *Policy*.

Finally, both the chairman of the Board of Directors & chief executive officer as well as the members of senior management and other persons holding key positions have a person who can replace them in their duties in the event of a limited absence. Each of the replacements has been chosen based on the personal and professional competence thereof.

5.2. Positions on the Board of Directors

a. Chairman of the Board of Directors & Chief Executive Officer

The chairman of the Board of Directors carries out the senior management of the Company and is the representative thereof, directs debates and ensures the proper operation of the Board of Directors and of the Executive Committee, which he also chairs.

In his capacity as chief executive officer, he regularly submits the management report to the management decision-making bodies and, if appropriate, makes proposed decisions regarding the matters within their purview.

b. Non-Executive Vice-Chair of the Board of Directors

The duties that the *Regulations of the Board of Directors* attribute to the non-executive vice-chair include the duty to temporarily replace the chairman of the Board of Directors, with all of the powers and duties thereof, in the event of non-occasional and unexpected vacancy, absence, illness or incapacity in chairing the General Shareholders' Meeting as well as the Board of Directors and the Executive Committee, thus avoiding any possible risk of a temporary power vacuum.

c. Business CEO (*consejero-director general de Negocios del Grupo*)

The Board of Directors has an executive director who acts as Business CEO, with overall responsibility for all of the businesses of the Group.

d. Lead Independent Director

A lead independent director (*consejero coordinador*), appointed from among the independent directors, upon a proposal of the Appointments Committee and with the abstention of the executive directors, has the powers vested therein by the *By-Laws* and the *Regulations of the Board of Directors*, which go beyond those required by law.

e. Secretary of the Board of Directors

The secretary of the Board of Directors endeavours to ensure the formal and substantive legality of the actions of the Board of Directors, as well as coordination among the secretaries of the committees of the Board of Directors in all matters relating to the Governance and Sustainability System and to regulatory compliance.

5.3. Committees of the Board of Directors

The Board of Directors has an Executive Committee and four consultative committees: the Audit and Risk Supervision Committee, the Appointments Committee, the Remuneration Committee and the Sustainable Development Committee, the composition, powers and operation of which are governed by their respective regulations, which are approved by the Board of Directors.

The Executive Committee is a basic corporate governance instrument of the Company, the basic function being to support the Board of Directors in supervising the implementation of the strategy defined thereby, ensuring the continuous implementation thereof throughout the year. Therefore, the Executive Committee meets more frequently than the Board of Directors.

The chair of the Executive Committee informs the Board of Directors of the matters dealt with and the resolutions adopted at the first meeting of the Board held after the meetings of the Executive Committee.

5.4. Meetings of the Board of Directors and its committees

Within the framework of the provisions of the *Innovation Policy*, the company conceives of innovation as a strategic variable that affects all of its businesses and activities, including its corporate governance practices. This strategic objective permeates the entire organisation and affects all issues of order and operation of the Group.

Driven by this eagerness to remain at the forefront of innovation, the Company promotes the use of new technologies by the Board of Directors and its committees, which constitute a fundamental element for the efficient performance of their duties, and has the tools required to allow for the holding of meetings of its corporate decision-making bodies by remote means of communication.

Annex II of this *Policy* sets out the specific rules that must be met to use remote communication systems to hold meetings of the Board of Directors and of the committees thereof.

5.5. Corporate and Governance Structure and Business Model of the Group

The corporate organisation of the Group, which forms an essential part of the Governance and Sustainability System, is comprised of:

- a. the Company, which is configured as a listed holding company, the main function of which is to act as the entity owning the equity stakes in the country subholding companies;
- b. the country subholding companies, which in turn group together the equity stakes in the Group's head of business companies; and
- c. the head of business companies.

This corporate configuration is intended to favour an agile and rapid decision-making process in day-to-day management within the purview of the head of business companies, while at the same time ensuring appropriate coordination at the Group level as a result of the organisational and supervisory duties performed by the Company's country subholding companies.

NOTICE. This document is a translation of a duly approved Spanish-language document, and is provided for informational purposes only. In the event of any discrepancy between the text of this translation and the text of the original Spanish-language document that this translation is intended to reflect, the text of the original Spanish-language document shall prevail.

Based on this corporate structure, the Group's governance model is governed by the principles described below, which duly distinguish between the duties of strategic definition, supervision and control, on the one hand, and day-to-day and effective management, on the other:

- a. Vesting within the Board of Directors of powers relating to approval of the strategic goals of the Group, the definition of its organisational model and the supervision of compliance therewith and further development thereof.
- b. Assumption by the chairman of the Board of Directors & CEO, with the technical support of the Operating Committee, by the Business CEO, with overall responsibility for all of the businesses of the Group, and by the rest of the management team, of the duty of organisation and strategic coordination within the Group.
- c. The function of strategic organisation and coordination is strengthened through the country subholding companies in relation to those countries and/or businesses decided by the Board of Directors.
- d. The head of business companies of the Group assume decentralised executive responsibilities, enjoy the independence necessary to carry out the day-to-day administration and effective management of each of the businesses and are responsible for the day-to-day control thereof.

The provisions of the preceding paragraphs shall be without prejudice to respect for the corporate autonomy of the subsidiaries of the head of business companies domiciled in countries or territories other than that of the parent company. These subsidiaries may be vested with the effective management of their business activities within their country or territory.

Within the Group's corporate and governance structure, the Operating Committee is an internal committee of the Company, the essential function of which is to provide technical, information and management support to the chairman of the Board of Directors & chief executive officer, in order to facilitate the development of the Group's Business Model. The composition and duties thereof are described in the *Internal Rules on Composition and Duties of the Operating Committee*.

5.6. Checks and Balances System

The structure of the Board of Directors, with a broad majority of independent directors, the configuration of its positions, the existence of consultative committees, the corporate and governance structure and the Group's Business model described above articulate a system of checks and balances ensuring that neither the chairman of the Board of Directors & CEO nor the Executive Committee have a decision-making power that is not subject to appropriate controls and balances, ensuring that both are under the effective supervision of the Board of Directors.

In particular, the roles of non-executive vice-chair and of lead independent director serve as a counterbalance to that of the chairman when the chairman is an executive director, ensuring that the activities thereof are subject to proper controls.

Along the same lines, the corporate and governance structure of the Group itself is designed such that management power is not centralised within a single governance body or a single person, but rather is decentralised among the boards of directors of the head of business companies, the Company's main function being the supervision, organisation and strategic coordination of the Group.

* * *

This *Policy* was initially approved by the Board of Directors on 18 December 2007 and was last amended on 19 April 2021.

Annex I

Self-organisation Rules of the Board of Directors

Succession Plan for Non-Executive Directors

Each of the non-executive directors undertakes to tender their resignation to the Board of Directors at the first meeting it holds after they reach seventy years of age or twelve years as a director of the Company.

Cessation in office of a director as provided in the preceding paragraph shall not give rise to the right to receive any severance payment for this reason.

On periodic basis, and at least once per year, the Appointments Committee shall review whether it can be expected that any of the non-executive directors will cease to perform their duties during the financial year due to issues of age or time in office or for any other reason.

In such case the Appointments Committee shall drive the selection process established in the *Board of Directors Diversity and Member Selection Policy* to identify a candidate in replacement thereof with sufficient time to ensure an orderly succession.

Succession Plan for the Chairman of the Board of Directors & Chief Executive Officer

If the chairman of the board of directors & chief executive officer gives early notice of his desire to resign from his position, the succession thereof shall be planned and coordinated a specific committee, which shall be convened and chaired by the lead independent director and shall be made up of the lead independent director, the chairs of the consultative committees of the Board of Directors and the chairman & CEO himself.

The committee may contract for the advice of an independent expert to be paid for by the Company.

Within a period of not more than thirty days from the chairman of the Board of Directors & chief executive officer giving early notice of his desire to resign from his position, the committee shall provide to the Board of Directors a specific proposal regarding the replacement thereof, which must take into consideration the special personal and professional skills of the candidate and the ability thereof to lead the development and implementation of the strategic plan in effect. In particular, the committee shall favourably value those candidates that are directors or members of the management team of the Company or of other companies of the Group and that have been linked thereto as directors or professionals for at least five years.

In the event of non-occasional or unexpected unavailability of the chairman of the Board of Directors & chief executive officer, the non-executive vice-chair, or in the absence thereof the director having the longest length of service, and if equal lengths of service, the oldest, shall temporarily assume the chairmanship of the Board of Directors, which must be convened to meet within a period of not more than forty-eight hours from the time that such unavailability becomes known. The agenda of this meeting shall include the identification of the person temporarily assuming the duties of chief executive, and the planning of the definitive succession shall be entrusted to a specific committee upon the terms described above.
